

SESAR – EP3 Information Navigator

(differences between versions of 17JUL and 02OCT)

EPISODE 3

VALIDATION WORK

- Validation Exercises now show linkage to Operational Scenarios:
 - Essential OS
 - Desirable OS

CONCEPT WORK

- List of actors extended (5 new actors) and sub-actors introduced
- List of Operational Scenarios updated following “Re-start workshop” in Toulouse (Sept 2008). Operational Scenario view also enhanced to show:
 - Linkage to UC (if already identified)
 - Linkage to Validation Exercises (if already identified)
- General DOD – G DOD – added in the list of DODs

GLOSSARIES (new section added)

- Glossary of acronyms and glossary of definition added (taken from Lexicon V1.0 found under EP3 website)

SESAR (Definition Phase)

- No changes except SESAR Glossary is now presented as a table
